PROFILE & ORIGIN

THE ARTIST

Born in Santa Catarina and shaped by more than a decade of musical exploration, JUKKA (Juliano Barbosa) operates at the intersection of emotive harmonic structure and club-focused kinetic energy.

A multi-instrumentalist since the age of eight, his foundation was forged on acoustic instruments before transitioning into analog synthesizers and modular sound design. Rather than adhering to rigid formulas, his work treats electronic music as an expansive canvas — uniting the warm physical presence of real-world instruments with the hypnotic weight of contemporary house and techno.

EVERY RELEASE HAS A STORY

"Music is not an arbitrary exercise in sound design or algorithmic trends. To me, every track is an archive of living memory — a direct translation of a passage, a personal transition, a feeling, or a pivotal chapter of existence. If a track does not carry real life within its core, it cannot truly move another human being."

This narrative integrity forms the cornerstone of JUKKA's artistic universe. From tributes that celebrate foundational family roots to cathartic dancefloor pieces written after intense life transitions, his music speaks with authentic vulnerability while commanding the dancefloor with unrelenting acoustic pressure.

SONIC ARCHITECTURE

THE JUKKA SOUND

An immersive sonic territory centered across Melodic House & Techno, Progressive House, and Deep House — crafted as an evolving spectrum rather than a rigid perimeter.

TENSION & RELEASE

Carefully sculpted harmonic builds that build anticipation without resorting to artificial climaxes.

HYBRID PRODUCTION

The rich, imperfect timbre of hardware synthesizers and analog warmth anchored by modern low-end weight.

ORGANIC GROOVE

Rhythmic drive informed by hands-on percussion and instrumental timing, keeping the dancefloor locked in motion.

THE HEART OF THE CATALOG

FILHOS DE EVA

NATURE COLLECTIONS · NCOL015

Conceived as an intimate tribute to the artist's mother, 'Filhos de Eva' represents the emotional anchor of JUKKA's discography.

Comprising three distinct works — 'Eva', 'Ampulheta', and 'Hope' — the EP translates familial gratitude, the inexorable flow of time, and enduring optimism into immersive melodic arrangements. The release serves as the most tangible manifestation of his core artistic principle: that music should always stem from authentic life events.

LANDMARK AUDIOVISUAL RECORDING

JARDIM BOTÂNICO

CURITIBA, BRAZIL · SPECIAL OPEN-AIR SESSION

JUKKA recorded a groundbreaking audiovisual DJ set at the landmark Curitiba Botanical Garden during the pandemic.

Recorded in a Cercle-style visual format against the futuristic greenhouse backdrop of one of South America's most recognizable cultural landmarks, JUKKA was the first artist to perform an electronic DJ session at the site. Subsequent updates to municipal park guidelines ceased electronic music sessions at the grounds, cementing this recorded performance as a historic, unrepeatable document in Brazilian electronic culture.
